Su Collection Registration Quiz and Video Journey

Second free workshop • 14 November 2026
Prepared by - Pubuditha Lakshan (Digital Marketing Strategist)

Purpose and proposed decision

Build a short mobile registration journey that identifies why each person is joining, introduces the relevant workshop value through an optional answer-based video, and gives every successful registrant a clear WhatsApp invitation. Target at least 2,000 unique valid registrations and 500 unique workshop attendees. These are goals, not predicted results.

Collect basic details first (store it in the database), then ask four short questions (quiz). Save the completed registration before showing the selected video and WhatsApp invitation together. Aim to test a text-only completion time of about two minutes. Video length and completion time are design targets to validate with real users. The quiz is a needs assessment, not an exam or a test of purchasing power.

What this document supplies

English implementation guidance plus paired English and Sinhala public copy for the page and quiz; complete answer-to-video rules; seven recordable video scripts; lead labels and handoffs; contact and consent fields; attendance follow-up; measurement; implementation requirements; and launch acceptance checks. Pasindu checks the supplied Sinhala interface copy and Hasitha rehearses the supplied Sinhala scripts with Mrs. Swarna, retaining the meaning. Mrs. Swarna confirms teaching claims before recording and Hansaka responsible for UI UX.

Workshop promise

Learn how to start or improve a small sewing business using available resources, choose a suitable first product, reduce fabric waste, calculate a selling price and build customer trust for repeat orders.

Proposed practical outcome for Mrs. Swarna to confirm: each learner drafts a simple starting plan for one product, including available resources, a basic cost and price calculation, and a next step for handling an order.

Facts still needed before publication

The date is 14 November 2026. The time is not yet confirmed: Hasitha runs a community poll using feasible options agreed with Mrs. Swarna and the operators. Fazna records the selected time after availability and any tie are resolved; Chiranthaka approves publication. Confirm duration, minimum sewing skill, practical example, capacity, help contact, final Hostinger domain, WhatsApp destination and replay policy. Do not advertise an unconfirmed time, resource, guaranteed profit or replay. Publishing and offer CTAs follow the second-wave decision; this document does not change the first-wave content plan.

1 Targets and honest funnel measurement

500 ÷ 2,000 = 25%. Achieving the attendance goal requires at least one in four registrants to attend. Quiz relevance helps, but clear expectations, working joining links, useful reminders and event capacity also matter.

Planning scenario	Required volume
Landing visit to valid registration at 50%	4,000 unique landing visitors for 2,000 registrations
Landing visit to valid registration at 40%	5,000 unique landing visitors
Landing visit to valid registration at 30%	About 6,667 unique landing visitors
Illustrative community path	2,000 registrations × 80% confirmed joins × 31.25% attendee conversion = 500 attendees

All percentages above are planning assumptions, not industry benchmarks or forecasts. Confirm current registration totals and campaign budget before setting daily acquisition goals (Campaign plan will be provided within 28/29). Count only completed registrations; report contact-only records separately. Required daily registrations = remaining valid registrations ÷ remaining acquisition days. Example only: 2,000 remaining over 14 days requires about 143 per day. (Everything needed to record in the CRM by Hasitha or named person by Pubuditha)

Definitions used by the team

Valid registration: a successfully saved, non-test, non-spam record for this event with the four core answers, a name, a plausible WhatsApp contact and workshop-contact acknowledgement. One person counts once; repeated submissions and shared family numbers need controlled handling. Valid format does not prove phone ownership or genuine intent.

Relevant workshop registrant: someone whose stated goal fits the business topics, including an unsure learner who chooses to attend after the scope is explained. Product enquiries and custom-order enquiries remain separate categories.

Confirmed community join: membership matched through an authorised, reliable record. A join-button click is only a click. Self-reported membership is labelled self-reported. Unmatched membership remains unknown.

Unique attendee: a non-staff, non-test person present in the Zoom attendance record, with reconnects deduplicated where reliable. Report unmatched display names separately; do not match names by guesswork. Also report an optional 20-minute engaged-attendee measure and peak concurrent attendance separately.

Capacity is a launch dependency

Dinesh and Lakshan must verify the licence assigned to the actual Zoom host. Choose capacity above the expected simultaneous audience plus staff and headroom.

2 Screen sequence and landing page copy

Screen	What the visitor sees and does
1 Welcome	Date, five topics (explanation about workshop) and time-poll explanation; optional V0 introduction (this is optional hansaka should decide based on the UI UX). Register for free.
2 Basic details	Name, WhatsApp, workshop acknowledgement, optional updates opt-in. Save status=started; Continue to questions.
3 Purpose and situation	Q1 purpose; Q2 current stage. One question per screen. Separate enquiry route for product-only visitors.
4 Challenge and support	Q3 priority topic; Q4 learning preference. Back navigation retains answers.
5 Complete registration	After Q4, submit all answers. Successful server save changes status to complete and counts once.
6 Personalised result	Show selected V1–V5, Q3 focus and equivalent text. WhatsApp community join-and-vote button visible immediately.
7 Community and optional choices	V6 is optional supporting guidance. Offer help, existing-member acknowledgement and optional explicit product requests. Calendar after time confirmed.

Landing page master copy

Headline: Turn your sewing skills into a practical small-business plan.
Supporting text: Join Mrs. Swarna for a free workshop on starting with what you have, choosing suitable products, reducing fabric waste, planning your price and building repeat orders.
Date: 14 November 2026. Before the poll closes, state that time will be confirmed through the WhatsApp community poll. After confirmation, display the time and Sri Lanka time zone everywhere.
Primary button: Register for free.
Helper: Answer four short questions so we can understand what you want to learn. There are no right or wrong answers. Videos are optional.

Who this is for: people exploring a sewing business and people already taking small orders who want a clearer plan.
Scope note: This session focuses on sewing-business decisions. It does not promise a complete beginner sewing course, guaranteed demand or guaranteed earnings.

Mobile interaction rules

Use large answer buttons, visible Back and Continue controls, and a four-question progress indicator. Preserve selected answers when going back. Do not auto-advance after a tap. Use text with icons rather than icons alone. Provide keyboard focus, readable contrast and labelled error messages. No account or password is required.

Never require a video to finish before Continue works. Show text when video fails, is skipped or cannot load. Do not preload every branch video. Keep the same registration path usable on a slow mobile connection. The initial details step is saved as started, never complete. After Q4, the Complete registration button saves answers and changes status to complete before the video and join link appear. Avoid long sales copy, fake scarcity, forced sharing and countdowns before the actual time is confirmed.

3 Exact quiz questions and answer codes

Note: Sinhala Copy Pack is given under section 11

Q1 What is your main reason for joining

Single choice. “Choose the one that matters most today.”
START — I want to start a small sewing business.
IMPROVE — I already take sewing orders and want to improve the business.
LEARN — I mainly want to learn sewing skills.
CUSTOM — I want to ask about getting something sewn or buying a product.
UNSURE — I am exploring and want to understand where to begin.

CUSTOM only: show “This workshop teaches sewing-business basics. Would you like to attend as well?” Buttons: “Yes, continue registration” and “Only send a product or sewing enquiry”. The second opens a separate consented enquiry form, not the workshop community; no workshop registration is counted. All other answers continue normally.

Q2 Which best describes your current situation

Single choice.
NEW — I am new to sewing.
SKILL — I can sew but have not taken paid orders.
OCCASIONAL — I take paid orders occasionally.
REGULAR — I already run a sewing business or take regular orders.
PREFER_NOT — I would rather not say.

If Q1 START and Q2 REGULAR, retain both responses and flag possible mixed intent. Do not tell the person they answered incorrectly or silently rewrite their goal. Hasitha can clarify only if a relevant conversation occurs.

Q3 What would you most like help with

Single choice, mapped to the approved lesson topics.
RESOURCES — Starting with the money, tools and skills I already have.
PRODUCT — Choosing a suitable product and understanding customer demand.
FABRIC — Reducing fabric waste and controlling material costs.
PRICE — Working out costs and a selling price.
ORDERS — Delivering good orders and encouraging customers to return.
NOT_SURE — I am not sure yet.

Q4 How do you prefer to learn at this stage

Single choice.
FREE — Free workshops and practical lessons for now.
SELF — A structured guide I can work through myself.
GUIDED — Personal guidance and feedback.
EXPLORE — I am still deciding.

Every choice retains workshop access. SELF and GUIDED are preference tags only. They must not automatically trigger a sales call, a “hot lead” label or paid-product messaging. Actual requests for product information are collected separately after registration.

Result focus text

“Your chosen focus: [Q3 plain-language label]. We will use your answers to understand participants’ needs. The workshop covers the five advertised topics; this does not create a private or customised lesson.” For NOT_SURE use: “Your focus: finding a useful starting point.”

4 Deterministic routing and lead handling

Select one result video using the first applicable rule below. Video selection uses stated purpose and stage. Q3 changes the focus text below it; Q4 informs the internal preference tag. This avoids producing a separate video for every possible combination.

Priority	Condition	Video and route
1	Q1 CUSTOM and enquiry only	Separate enquiry. No workshop registration or community invitation.
2	Q1 CUSTOM and also attending	V5 Explore. Record secondary custom/product interest; no paid sale inferred.
3	Q1 LEARN	V4 Sewing learner. Clarify business focus; retain access.
4	Q1 UNSURE	V5 Explore. No forced offer recommendation.
5	Q1 IMPROVE or Q2 OCCASIONAL/REGULAR	V3 Improve existing orders.
6	Q1 START and Q2 SKILL	V2 Start with existing skills.
7	All remaining complete answers	V1 Start from the beginning.

Maintain separate fields rather than one quality score

Record purpose, stage, challenge, learning preference, contact verification state, membership state, attendance state and explicit enquiry state. A high-quality learner can have no buying interest. Do not rank people by age, gender, income or ability to pay.

Operational label	Trigger and action
Workshop learner	Valid registration. Provide invitation and logistics regardless of learning preference.
Contact unverified	Plausible number but no ownership check. Keep this label until a reply or other reliable verification.
Explicit e-book request	User separately requests e-book details. Hasitha replies with approved scope and terms.
Explicit mentorship request	User requests mentorship details. Hasitha prepares a private fit note; Mrs. Swarna decides suitability.
Custom or other product enquiry	Stated enquiry; collect requirement privately and assign an owner. Do not add to workshop totals unless also registered.
Invalid or suspected abuse	Invalid contact, automated traffic or confirmed test. Rate-limit or review; do not treat low skill as abuse.

Queue priority: access problems first, then explicit product requests, then membership/help requests. Free-only preference receives workshop service without sales follow-up. Hasitha reviews the queue twice daily within agreed coverage; Fazna tracks unresolved owners and deadlines. Response-time promises depend on actual staffing.

5 Video scripts for welcome and business paths

Adding English content to get ideas, recording going with complete Sinhala counterparts in the bilingual copy pack. Obtain Mrs. Swarna's approval before filming. Timing ranges are estimates; time the spoken recordings. Use a calm direct-to-camera delivery or clear voice-over with garment/tool visuals. These are short relevance videos; the registration goal is free workshop participation.

V0 Welcome before basic details (optional - UI UX Designer must decide based on the connection limitations)

Hello, I'm Swarna from Su Collection. Are you thinking about starting a small sewing business or improving the orders you already take? In our free workshop on 14 November, we will discuss using your resources, choosing suitable products, reducing fabric waste, planning prices and building customer trust. First enter your basic details, then answer four short questions. Afterwards, join our WhatsApp community to vote for a convenient workshop time.

V1 Starting from the beginning

You are looking for a starting point. Before spending on more tools or materials, it helps to understand what you already have and what you still need to learn. This workshop introduces the first business decisions around resources, products, costs and customers. It does not replace basic sewing practice. Your registration is complete. Join the WhatsApp community below to vote for a convenient time and receive joining information.

V2 Starting with existing skills

You already have sewing skills and want to turn them into a small business. A useful next step is choosing one suitable product, understanding who needs it and working out what it costs to make. In the workshop, we will connect those choices with fabric use, pricing and handling your first orders. Your registration is complete. Join the WhatsApp community to vote for the time. Bring an idea for a product you would like to explore.

V3 Improving existing orders

You already take sewing orders. You may now want a clearer way to manage material costs, set prices and deliver consistently. In this workshop, we will explore those business decisions and how good service can help build customer trust. Think of one recent order and a difficulty you faced. You can use it as your own example during the lesson. Your registration is complete. Join the WhatsApp community to vote for a convenient time and receive the workshop details.

On-screen treatment (video captions) for V1 to V3

Show speaker name and role, the route title, and no more than three short supporting phrases at once. Keep date and CTA in editable page text rather than embedding an unconfirmed time into the video. Under each clip show the Q3 focus label and equivalent transcript. Primary button: Join the WhatsApp community and vote for the time to attend. The button is available immediately beside the video. Secondary control: Read the text version.

6 Video scripts for other paths and success

V4 Sewing learning interest

You are mainly interested in learning sewing. This workshop focuses on the business side: choosing products, using fabric carefully, calculating costs and serving customers. It is not a step-by-step sewing technique class. If you would like to explore how sewing connects to a small business, you are welcome to attend. Your registration is complete. Join the WhatsApp community to vote for a convenient time.

V5 Exploring or attending alongside another enquiry

You may still be deciding what you need, and that is fine. This free workshop introduces practical decisions involved in a small sewing business. You can explore the ideas without committing to a paid programme. A custom sewing or product enquiry can be handled separately. Your workshop registration is complete. Join the WhatsApp community to vote for a convenient time and receive joining information.

V6 Optional joining guidance

Thank you. Your workshop registration is complete. Join our WhatsApp community using the button on this page. There you can vote for a convenient time for the 14 November workshop. Once the time is confirmed, we will share the final details and joining instructions. If the community link does not work, use the help option below.

Success page master copy

Headline: Your free workshop registration is complete.
Primary action: Join the workshop WhatsApp community.
Helper: We can add QA for helping common problems

Optional choices after successful registration

Attendance: “With the confirmed date and time shown above, do you plan to join live?” Answers: Yes / Not sure / Cannot attend live. If time is not confirmed, show “We will ask when the time is confirmed” instead. This answer never cancels registration; do not promise a replay.

Product information, unticked and independent: “Please send me the approved e-book details”; “Please contact me about mentorship options”; “No product information for now”. Submit button: Save my preferences. Allow selecting either or both products; selecting no product clears the others. State that this does not purchase or enrol the person in anything. Show this below community joining, not as a condition of access. The same labels and permissions apply in either language.

7 Attendance and community operations

The quiz identifies needs. Attendance is supported by a clear date, a useful reason to attend, functioning access and dependable reminders. Use one workshop announcements destination, with interest tags in the restricted system. Separate groups for every quiz answer would increase moderation and link complexity.

Moment	Message and action
Immediately after registration	Visible invitation with date
After community entry	Pinned welcome explains five topics, date and time poll to vote, joining process and help. Ask learners to bring one product idea or recent order example if Swarna approves.
During the lead-up	Useful short lesson or poll about the five topics. Hasitha reports common questions to Pubuditha and Swarna.
7 days before	Reconfirm date/time and practical preparation. Ask attendance intent if needed.
24 hours before	One authoritative meeting link or instructions for where it appears, device preparation and private help route.
1 hour before	Concise joining reminder and help. Send only to the agreed audience and avoid duplicated reminders across every channel/group.
At start	Pinned joining guidance; Hasitha handles failed joins. Fazna coordinates the session.
After event to 21 November	Approved recap or resource only if available; separate attendance, feedback, explicit enquiries and verified orders.

Suggested message masters

Welcome before the poll: “Welcome to the free workshop community. Our session is on 14 November. Please vote in the pinned poll for a convenient time; we will announce the confirmed time here. For joining difficulties, contact [approved private help route].”

24-hour reminder: “Tomorrow we will explore starting with available resources, choosing products, reducing waste, pricing and building customer trust. Join at [time] using [approved joining route]. Keep one product idea or recent order in mind. Need help? [contact].”

No-show follow-up: “We missed you at the workshop. If you had trouble joining, please tell us so we can help improve the process. [Only if available: Here is the approved recap.]” Do not imply a recording exists when none was approved.

Joining evidence and capacity

Use authorised membership records where available, private replies and attendance exports. No unsupported automatic WhatsApp membership claim or scraping. Before release, test whether the actual destination is a community, announcement group or channel and make all page labels match. Confirm capacity, member visibility and admission settings with Hasitha and Fazna.

8 Build specification for Deshanth and Pasindu

Data and state model

Required restricted fields: registration_status (started/quiz_in_progress/complete/enquiry_only), registration_id, event_id, created_at, updated_at, name, normalised_phone, optional_email, Q1–Q4 answer codes, video_id, quiz_version, copy_version, contact_state, workshop_contact_acknowledgement, marketing_opt_in, consent_timestamp, approved_source_codes and test_flag. Separate optional fields: attendance_intent, explicit_product_request, enquiry_owner, next_action_due and operational status.

Community fields: invitation_clicked_at, membership_state (unknown/self_reported/confirmed), confirmation_method and confirmed_at. Attendance fields: raw attendance reference, deduplicated attendee status, duration if reliable, match confidence. Paid order records stay in the existing order system; do not add payment to registration.

Details first save contract

On details submit, validate name, number and workshop acknowledgement; save status=started and return an opaque session token. On each quiz step, validate answer codes and retain progress under the same record. After Q4, Complete registration performs an idempotent final save of all answers, consent, computed route and status=complete. Only successful completion emits registration_complete and unlocks the personalised result and community invitation. If either save fails, retain entered values and provide retry; never show false success.

Video behaviour

Maintain a configuration map of video IDs to approved asset URL, poster, captions, transcript and version. Use standard player controls, click-to-play and no forced sound. Load only the selected clip with preload none or equivalent. Use compressed mobile delivery, captions and text fallback. Test the real host/domain for speed and playback; no specific video service is assumed.

Core analytics events

Event	When it fires
registration_start	Basic-details form is opened; details_saved marks successful incomplete record creation.
quiz_step_complete	A valid answer advances; include step code and quiz version, not raw free text.
branch_preview_shown	Selected route displayed; include video ID and experiment variant.
video_start / video_complete / video_skip	Actual player action; separate optional engagement metrics.
registration_complete	Successful backend confirmation once per registration.
whatsapp_invitation_click	Click only. Never name this community_join.
community_join_confirmed	Restricted operational record only after evidence; aggregate reporting can follow.
workshop_attended	Reconciled attendance record; do not infer from a Zoom-link click.

9 Quality checks and improvement rules

End to end acceptance cases

Test	Pass condition
Each routing branch	Every Q1/Q2 branch selects the expected V1–V5. Unknown or unsupported codes are rejected safely.
Change an answer	Back navigation preserves input; preview and stored video ID recompute correctly.
Video skipped or unavailable	Registration and community invitation still work with text and captions/transcript.
Invalid number or blank field	Specific inline error; no completed-registration event.
Duplicate and double tap	One registration counted; no exposure of existing personal data.
Save timeout and retry	No false success; preserved answers; idempotent retry.
Custom enquiry only	Correct separate form and owner; no workshop total or automatic community entry.
Free learning preference	Workshop access works; no product request or marketing opt-in invented.
Product preference versus request	SELF/GUIDED does not create enquiry; explicit post-registration request does.
Mobile and accessibility	Small Android phone, iPhone, keyboard, slow connection, Sinhala text and captions tested.
Community and meeting	Live destination works and has capacity; host licence and attendee export are verified.
Analytics and privacy	Events deduplicate; personal values never appear in URLs or analytics payloads.

Small pilot before public traffic

Run 8–12 observed trials across beginners, occasional order-takers and established sewing businesses, including slow mobile connections. Check whether participants understand the business focus, can finish unaided, and know that registration and community joining are separate. Pilot users are marked test and excluded from campaign totals.

Test whether video actually helps

If traffic permits, randomly assign a stable 50/50 split to the same quiz with optional branch video versus equivalent text-only preview. Both versions keep the same questions and access. Compare valid registrations per unique visitor, completion time and confirmed joins; use attendance later. Video views are diagnostic, not the success measure. Report sample sizes and uncertainty; do not declare a winner from a small early difference.

Suggested operational trigger: after at least 100 starts, investigate any step losing more than 20% of entrants, while checking traffic quality and technical errors. This is a provisional review rule, not a benchmark. Fix reproducible failures immediately. If video causes friction, keep the text fallback or remove the preview step. Do not keep adding questions to improve “quality” without measuring the registration cost.

10 Owners launch sequence and approvals

Owner	Deliverable and acceptance
Pubuditha	Approve audience routes, four questions, interpretation, video logic and success definitions. Review completion and intent quality.
Mrs. Swarna	Approve topic scope, learner requirements, practical outcome and scripts; record or supply voice. Confirm all offered facts.
Chiranthaka	Approve campaign wording, public assets and publishing readiness; arrange enquiry coverage.
Hansaka (Pasindu needed to support with tasks like web copy and things)	Create mobile screens and natural Sinhala copy, error states, captions/transcript presentation and accessible controls.
Hasitha	Produce approved video assets, maintain community pins and replies, reconcile joins and route explicit enquiries.
Deshanth	Build logic, validation, safe persistence, exports, media integration and analytics on the accepted Hostinger deployment.
Lakshan and Dinesh	Accept technical journey and verify Zoom host capacity and attendance exports. Lakshan retains OBS operation.
Fazna	Track dependencies, approvals, decision log, test evidence and release owner. Record current links and unresolved items.

Proposed delivery sequence

Step 1: Confirm missing event facts and approve the four-question map. Step 2: Hansaka designs screens and pasindu support with webcopy while Swarna and Hasitha prepare seven short clips. Step 3: Deshanth builds the text-first working journey, then connects approved media. Step 4: Run branch tests, mobile checks and pilot. Step 5: Technical acceptance and marketing release. Step 6: Hasitha monitors service issues daily; Pubuditha reviews funnel quality twice weekly. Fazna assigns actual dates without shifting unrelated task deadlines.

11 Bilingual copy pack and publication rules

This pack supplies paired English and Sinhala copy for the complete participant-facing journey. Use Sinhala as the initial language for this audience, with an English switch. A switch must preserve every entered field and answer. English and Sinhala share the same answer codes and routing; wording changes must not change their meaning. (switch one is optional at the starting point this is Sinhala only)

Confirmed sequence

EN Basic details → four questions → completed registration → relevant video and WhatsApp invitation.

Time selection policy

EN Workshop date: 14 November 2026. The time will be confirmed after a poll in our WhatsApp community.

SI වැඩමුළු දිනය: 2026 නොවැම්බර් 14. WhatsApp ප්‍රජාව තුළ පවත්වන ඡන්ද විමසීමෙන් පසු වේලාව තහවුරු කර දැනුම් දෙනු ලැබේ.

Mrs. Swarna and the operators first approve feasible time options. Hasitha posts the poll with its closing date and time. Fazna records the result and resolves a tie with Mrs. Swarna. Chiranthaka approves the announcement. Do not invent poll options or a closing deadline before agreement. Votes indicate preference, not a promise to attend.

Copy status and placeholders

The Sinhala text is ready for team review and recording rehearsal. Mrs. Swarna approves teaching accuracy; Hansaka & Pasindu checks interface clarity; Chiranthaka approves public wording. Replace every bracketed value before publication.

13 The five workshop topics in both languages

01 Starting with available resources

EN How can you start a sewing business with a small budget? Use your existing skills, tools and resources and identify what you need first.

SI අඩු මුදලකින් ඔබේ මැහුම් ව්‍යාපාරය අරඹන්නේ කොහොමද?
දැනට තිබෙන දක්ෂතා, උපකරණ සහ සම්පත් භාවිතයෙන් ව්‍යාපාරයක් ආරම්භ කිරීම සහ මුලින්ම අවශ්‍ය දේ තෝරාගැනීම.

02 Choosing a suitable product

EN How can you choose affordable products that suit customer demand? Identify customer needs and select suitable garments, sewing products or small orders to begin with.

SI අඩු වියදමකින් ආරම්භ කළ හැකි, පාරිභෝගික ඉල්ලුමට ගැලපෙන නිෂ්පාදන තෝරාගන්නේ කොහොමද?
පාරිභෝගික අවශ්‍යතා හඳුනාගෙන, ආරම්භයට සුදුසු ඇඳුම්, මැහුම් නිෂ්පාදන සහ කුඩා ඇණවුම් තෝරාගැනීම.

03 Reducing fabric waste

EN How can you make better use of fabric while reducing waste? Reuse suitable offcuts and control material-purchasing costs.

SI රෙදි නාස්තිය අවම කරමින් තිබෙන රෙදිවලින් උපරිම ප්‍රයෝජන ගන්නේ කොහොමද?
රෙදි නාස්තිය අවම කිරීම, ඉතිරි රෙදි නැවත භාවිත කිරීම සහ අමුද්‍රව්‍ය මිලදී ගැනීමේදී වියදම් පාලනය කිරීම.

04 Planning a selling price

EN How can you set a price that covers costs and aims for a profit? Include fabric, materials, labour, electricity and other costs when calculating a selling price and planning your money.

SI වියදම් ආවරණය කර ලාභයක් ඉලක්ක කරන විකුණුම් මිලක් තීරණය කරන්නේ කොහොමද?
රෙදි, අමුද්‍රව්‍ය, ශ්‍රමය, විදුලිය සහ අනෙකුත් වියදම් ගණනය කර සාධාරණ විකුණුම් මිලක් තීරණය කිරීම සහ මුදල් නිවැරදිව කළමනාකරණය කිරීම.

05 Building repeat orders

EN How can you move from a first order towards repeat orders? Build trust through quality, timely delivery and good customer service.

SI පළමු ඇණවුමෙන් නැවත නැවත ඇණවුම් දක්වා යන්නේ කොහොමද?
ගුණාත්මකභාවය රැකගැනීම, නියමිත වේලාවට ඇණවුම් භාරදීම සහ හොඳ පාරිභෝගික සේවාවක් තුළින් විශ්වාසය ගොඩනඟා ව්‍යාපාරය වර්ධනය කිරීම.

The moderated headings for topics 02–04 retain the supplied teaching scope while avoiding guaranteed demand, zero waste or guaranteed profit. Mrs. Swarna and Chiranthaka approve the final public headings.

V0 Welcome before basic details

EN Hello, I'm Swarna from Su Collection. Are you thinking about starting a small sewing business or improving the orders you already take? In our free workshop on 14 November, we will discuss using your resources, choosing suitable products, reducing fabric waste, planning prices and building customer trust. First enter your basic details, then answer four short questions. Afterwards, join our WhatsApp community to vote for a convenient workshop time.

SI ආයුබෝවන්, මම Su Collection හි ස්වර්ණා. ඔබ කුඩා මැහුම් ව්‍යාපාරයක් ආරම්භ කරන්න හිතනවාද? නැත්නම් දැනට භාරගන්න ඇණවුම් වඩා හොඳින් කරගෙන යන්න කැමතිද? නොවැම්බර් 14 නොමිලේ වැඩමුළුවේදී තිබෙන සම්පත් භාවිත කිරීම, සුදුසු නිෂ්පාදන තෝරාගැනීම, රෙදි නාස්තිය අවම කිරීම, මිල සැලසුම් කිරීම සහ පාරිභෝගික විශ්වාසය ගොඩනඟාගැනීම ගැන අපි කතා කරනවා. මුලින්ම ඔබේ මූලික තොරතුරු ලබාදී කෙටි ප්‍රශ්න හතරට පිළිතුරු දෙන්න. ඉන්පසු WhatsApp ප්‍රජාවට එක්වී ඔබට පහසු වැඩමුළු වේලාවට ඡන්දය දෙන්න.

V1 Starting from the beginning after registration

EN You are looking for a starting point. Before spending on more tools or materials, it helps to understand what you already have and what you still need to learn. This workshop introduces the first business decisions around resources, products, costs and customers. It does not replace basic sewing practice. Your registration is complete. Join the WhatsApp community below to vote for a convenient time and receive joining information.

SI ඔබට අවශ්‍ය ආරම්භ කරන්න හොඳ තැනක් හඳුනාගන්නයි. අලුත් උපකරණ හෝ අමුද්‍රව්‍ය සඳහා මුදල් වැය කරන්න කලින්, දැනට ඔබ සතුව තිබෙන දේ සහ තව ඉගෙනගත යුතු දේ හඳුනාගැනීම වැදගත්. මේ වැඩමුළුවේදී සම්පත්, නිෂ්පාදන, වියදම් සහ පාරිභෝගිකයන් ගැන මුල් ව්‍යාපාරික තීරණ සාකච්ඡා කරනවා. මෙය මූලික මැහුම් පුහුණුවක් වෙනුවට පැවැත්වෙන පාඨමාලාවක් නොවේ. ඔබේ ලියාපදිංචිය සම්පූර්ණයි. පහත බොත්තමෙන් WhatsApp ප්‍රජාවට එක්වී ඔබට පහසු වේලාවට ඡන්දය දෙන්න. වැඩමුළුවට සම්බන්ධ වන තොරතුරුත් එහි ලැබෙනවා.

Timing guide: V0 about 35–45 seconds; V1 about 30–40 seconds. Rehearse and measure the Sinhala delivery. Do not speed up unnaturally to meet a duration target.

21 Videos for starting and existing businesses

V2 Starting with existing skills

EN You already have sewing skills and want to turn them into a small business. A useful next step is choosing one suitable product, understanding who needs it and working out what it costs to make. In the workshop, we will connect those choices with fabric use, pricing and handling your first orders. Your registration is complete. Join the WhatsApp community to vote for the time. Bring an idea for a product you would like to explore.

SI ඔබට දැනටමත් මැහුම් හැකියාව තිබෙනවා. දැන් ඒ හැකියාවෙන් කුඩා ව්‍යාපාරයක් ආරම්භ කරන්න ඔබ කැමතියි. ඊළඟට වැදගත් වෙන්නේ සුදුසු එක නිෂ්පාදනයක් තෝරාගෙන, එය අවශ්‍ය කාටද සහ එය නිපදවීමට කොපමණ වියදමක් යනවාද කියා හඳුනාගැනීමයි. වැඩමුළුවේදී ඒ තීරණ රෙදි භාවිතය, මිල තීරණය කිරීම සහ මුල් ඇණවුම් භාරගැනීම සමඟ සම්බන්ධ කර බලනවා. ඔබේ ලියාපදිංචිය සම්පූර්ණයි. WhatsApp ප්‍රජාවට එක්වී ඔබට පහසු වේලාවට ඡන්දය දෙන්න. ඔබ ආරම්භ කිරීමට කැමති නිෂ්පාදනයක් ගැනත් සිතාගෙන එන්න.

V3 Improving existing orders

EN You already take sewing orders. You may now want a clearer way to manage material costs, set prices and deliver consistently. In this workshop, we will explore those business decisions and how good service can help build customer trust. Think of one recent order and a difficulty you faced. You can use it as your own example during the lesson. Your registration is complete. Join the WhatsApp community to vote for a convenient time and receive the workshop details.

SI ඔබ දැනටමත් මැහුම් ඇණවුම් භාරගන්න කෙනෙක්. අමුද්‍රව්‍ය වියදම් පාලනය කරන්න, මිල තීරණය කරන්න සහ ඇණවුම් හොඳින් භාරදෙන්න වඩා පැහැදිලි ක්‍රමයක් ඔබට අවශ්‍ය වෙන්න පුළුවන්. මේ වැඩමුළුවේදී ඒ ව්‍යාපාරික තීරණ සහ හොඳ සේවාවක් තුළින් පාරිභෝගික විශ්වාසය ගොඩනඟාගන්නා ආකාරය ගැන කතා කරනවා. මෑතකදී කළ ඇණවුමක් සහ එහිදී මුහුණ දුන් අපහසුතාවක් මතක් කරගෙන එන්න. පාඩම අතරතුර එය ඔබේම උදාහරණයක් ලෙස භාවිත කරන්න පුළුවන්. ඔබේ ලියාපදිංචිය සම්පූර්ණයි. WhatsApp ප්‍රජාවට එක්වී පහසු වේලාවට ඡන්දය දෙන්න.

SI ඔබට අවශ්‍ය දේ ගැන තවමත් සොයා බලමින් සිටිනවා නම් ඒක ගැටලුවක් නැහැ. මේ නොමිලේ වැඩමුළුවෙන් කුඩා මැහුම් ව්‍යාපාරයක ප්‍රායෝගික තීරණ ගැන හඳුන්වා දෙනවා. ගාස්තු අය කරන වැඩසටහනකට බැඳෙන්නේ නැතිව ඔබට මේ අදහස් ගැන ඉගෙනගන්න පුළුවන්. ඇඳුමක් මස්සවා ගැනීම හෝ නිෂ්පාදනයක් ගැන විමසීමක් තිබෙනවා නම් එය වෙනම සලකා බලන්න පුළුවන්. ඔබේ වැඩමුළු ලියාපදිංචිය සම්පූර්ණයි. WhatsApp ප්‍රජාවට එක්වී ඔබට පහසු වේලාවට ඡන්දය දෙන්න. සම්බන්ධ වීමේ තොරතුරුත් එහි ලැබෙනවා.

V5 appears only for people who chose to attend the workshop. Enquiry-only visitors receive the separate enquiry confirmation instead. Timing guide: 30–40 seconds per clip.

23 Joining guidance and video production

V6 Optional joining guidance

EN Thank you. Your workshop registration is complete. Join our WhatsApp community using the button on this page. There you can vote for a convenient time for the 14 November workshop. Once the time is confirmed, we will share the final details and joining instructions. If the community link does not work, use the help option below.

SI ස්තුතියි. ඔබේ වැඩමුළු ලියාපදිංචිය සම්පූර්ණයි. මේ පිටුවේ බොත්තම භාවිත කර අපේ WhatsApp ප්‍රජාවට එක්වන්න. නොවැම්බර් 14 වැඩමුළුව සඳහා ඔබට පහසු වේලාවට එහිදී ඡන්දය දෙන්න පුළුවන්. වේලාව තහවුරු කළ පසු අවසන් විස්තර සහ සම්බන්ධ වීමේ උපදෙස් එහි බෙදාගන්නවා. ප්‍රජාවට එක්වන සබැඳිය ක්‍රියා නොකරන්නේ නම් පහත උපකාරක විකල්පය භාවිත කරන්න.

Production instructions

Record V0 and V1–V5 as the core set; V6 is optional help content rather than a second compulsory result video. Keep one selected result video on screen. Use Mrs. Swarna on camera or her approved voice-over with relevant garment/tool visuals. Add Sinhala captions and a matching text transcript, with English equivalents available through the language switch.

Prepare clean audio, a readable portrait-safe frame and an editable thumbnail. Keep date/time labels in page text. Record the main guidance separately from the closing poll sentence so the ending can be replaced after time confirmation. Clip duration is a planning target and must be checked using the actual spoken Sinhala delivery.

Replacement ending after time confirmation (this is optional, no need for this workshop. This is for future works)

EN The workshop time is now confirmed. Join our WhatsApp community to receive the final details and meeting link.

SI වැඩමුළුවේ වේලාව දැන් තහවුරු කර ඇත. අවසන් විස්තර සහ වැඩමුළුවට සම්බන්ධ වන සබැඳිය ලබාගැනීමට අපේ WhatsApp ප්‍රජාවට එක්වන්න.

Use this replacement wherever an existing ending asks people to vote after the poll has closed. Update V0 introduction wording too. The site selects time_pending or time_confirmed copy from one event configuration; it must not show a stale poll invitation after confirmation.
